# OUR SAN FRANCISCO

Per R. M. S. Mariposa, San Francisco, October 18, 1890.

(From Our San Francisco Correspondent.)

Sugar and Trade.

New York, Oct. 18-Cuban Centrifugal, 96 degrees, 6 cents; granulated, 64 cents.

Sugar locally is a trifle weaker under the light demand. Granulated is quoted at 6 cents. The refiners are endeavoring to work up all stocks before the change in the tariff, and hence it is to be expected that there will be no improvement. The Eastern market is quiet and feature-

The California Refinery is busy on the stocks of Javan and Manila sugars which are coming in somewhat freely. The steamer Algema came in from Batavia on the 18th with 8,845 baskets, being the second of the fleet, the Suffolk having arrived some time since with 10,721 packages. On the 17th the third steamer, the Remus, arrived with 10,855 baskets, and the steamers still expected from Java are the Houmslaw, Eaton and Stradhearn. The cargoes of sugar per sailing vessel are also en route from Manila for this refinery.

Duncan Cameron, who holds the New York Supreme Court for share of the Colonial trade is toward re-organizing the concern. He also asks for a receiver to wind up the business of the trust.

Collector Phelps has received a circular from the treasury department notifying him that all sugars ally subsidized vessels. France of No.16 Dutch standard and under and Germany also have superior which are imported and entered for the warehouse prior to April 1st | and Consul Griffin believes that an next, and contained in bonded warehouses on that date, can be withdrawn free of duty.

The opponents of the McKinley bill through William Henderson of New York have raised a scare about sugar beet seed, declaring that it is Germany's intention to prevent exports of that article. Henderson says that the Secretary of Agriculthe effect that Germany intends to prevent by excessive export duties America. He says that should this prove true, the industry is liable to receive a terrible blow, for though our soil, or certain parts of it, is prime for the growing of beets, there is something lacking to proinfancy that not half the demand motive that would actuate Germany to such a deed must be, it is thought, her desire not only to protect her own beet sugar industry, but to take a backhand slap at us in retaliation for the injury done to her by the McKinley bill.

by the Board of Planters yesterday to consider the tariff question was attended by the wealthiest planters of Cuba. They decided to send the in favor of reciprocity with America aminer. and a revocation of the law of mercantile relations with Spain.

The imports of merchandise at San Francisco during September were valued as follows: Hawaii, \$1,030,247; Dutch East Indies, \$214,587; British East Indies,\$160,-728; Australia, etc., \$166,964; Tahiti, \$32,955; Philippines, \$29.291. Exports were valued as follows: Australia, 891,855; New Zealand, \$17,894; Hawan, \$284,702; Tahiti, \$28,952; Marquesas, \$670; Marshall Islands, \$5,365; Harvey Islands, \$5,778; Fiji, \$526.

# Steam Communication.

The rush to send freight to the Colonies has become so great that the Oceanic Company found it necessary to refuse freight for Honolulu by the Mariposa, and it is not thought probable that any of the through steamers will take freight for the Islands as long as the uncertainty about the mail subsidies continues.

Mr. John D. Spreckels says that he has every hope that the House of Representatives will pass the Our latest telegram from New York, of Representatives will pass the 9th inst., quotes beets at 13s, with an mail subsidy law at least at the short session of Congress, which begins in December, and, rather than sacrifice the enormous business which has been built up during the past six years, the company will run its through steamers at a loss. The company will have to spoken of as the possible successor pay the expense of carrying the of Senator Evarts. mails across the Continent, and the total subsidy that will be received will be at the rate of \$50,000 a Oceanic Company in the decidedly unpleasant position of paying \$30,-000 annually for the privilege of carrying the Colonial mails-a privilege which no one need covet. It is settled, however, that the through service will be continued 16th inst.

run a steamer service from Tahiti to Honolula. By some, the plan is thought to mean that the sugar interests and lands of the Society Islands are to be absorbed by one house. The general opinion, however, is very largely in favor of the service.

#### Pacific Cable.

Sanford Fleming, a prominent Canadian engineer, has returned to Ottawa from England, whither he went in the interest of the Trans-Pacific cable. During his stay in London, he had a long conference with Lord Knutsford, the Colonial Secretary, who, though warmly in favor of the cable, would not commit himself. Fleming is very hopeful of the success of the scheme. He says that the highest class of cable would, of course, have to be used, and the length would be 8,900 miles from Vancouver to Sydney. The stretches from one mid-ocean station to another would be from 1200 to 2700 miles long, and the outside cost he places at £1,800,000, the interest on which would be but £5400 per annum.

#### Australian Trade

G. W. Griffin, the United States Consul at Sydney, has filed a most interesting report in the State Department concerning Australian trade. The report includes elaborate detailed tables of exports and imports between the United States Sugar Trust stock, has appealed to and the Colonies. The British an injunction restraining the trust, placed at 89.49, while the United Kidder, Peabody & Co. and others | States has 4.63 per cent. of the imfrom taking any further steps ports and gets 5 per cent. of the exports. France and Germany are bidding for the trade, the latter having .74 per cent., and the former 2.30 per cent. of the total. This is small, but both have liberbanking facilities in the Colonies. American bank would pay at Sydney. The report is full of suggestions to Colonial traders.

#### Personal.

Claus Spreckels is to go East in a few days. He has spent the greater portion of the past four weeks at Watsonville looking after his beet sugar interests.

Among the passengers on the ture has received an intimation to Mariposa are Hon. S. S. Damon, Hon. A. Inglis Clark, Attorney-General of Tasmania, Samuel the shipping of beet sugar seeds to Crump of Crump & Son, the Philadelphia Lithographers, who is en route to Australia, Messrs. W. C. Wilder and Jono. Austin.

Adolph Spreckels has embarked in the brewing buiness. With Adolphus Busch, the head of the Anduce seeds that will grow an equal heuser-Busch Co. of St. Louis, the quantity of beets. Moreover, even largest brewers in the world, C. A. largest brewers in the world, C. A. were the beets grown here of that | Zinkand of the Louvre, and some kind, the industry is so much in its others, he is in the field with a \$3,000,000 company to build a for seeds could be supplied. The brewery that will fight the English syndicate having control of the business of the Pacific Coast.
